

Emergency Learning Plan

Carolina Voyager Charter School

Teachers: **Ms. Courtney A. Snype**

Grade Level: **Literacy Intervention, K- 5**

Please describe your plan for instructional delivery during the time of closure (e.g. paper and pencil packets, virtual instruction or materials, etc.)

Literacy intervention students will receive paper and pencil packets that they may complete at home.

How do you plan to meet the requirements under Regulation 43-172, which stipulates that “a pupil shall maintain membership in a minimum of 200 minutes of daily instruction or its equivalency for an annual accumulation of 36,000 minutes?”

Literacy intervention students will read and respond to the text and complete a grade level specific activity.

How will the grade level ensure that every student and parent/guardian has a clear understanding of the responsibility of students to complete assignments?

The schools administration team has communicated expectations and the literacy interventionist will follow up as needed.
